Make a copy of the document (File -> Make a Copy)							
Enable Macros							
Select Move							
Select Items							
Copy the set to where they can be compared -> Set2-Set1, Set4-Set3							
SpAtk Specs is set as 0 stacks							
SASStack [1]	stands for Special Attack Specs 1 Stack						
SASWM [2]	stands for Special Attack Specs 1 Stack with Wise glasses modifier						
How to compare Special Attack Specs thresholds							
Compare an HPS/SPS - Heal per second / Shield per second by copying to set2 and set1 (set1 to have Special Attack Specs in build).							
Compare a set4-set3 where set4 is SASStack or SASWM and set3 is None.							
Set2-Set1's HPS divided by Set4-Set3 will give you how many stacks Set1's Special Attack Specs to have to beat Set2
